

# COMPANY PROFILE

Manufacturer And Supplier Of Stainless Steel Fasteners  
CAD Designing Service Provider With Drafting, Modelling  
Product Sourcing & New Product Development  
Exporter of Automotive Parts, Engineering Components  
& CNC Machined Components

 [rajalfast@gmail.com](mailto:rajalfast@gmail.com)  +91 84603 62030

# WHO WE ARE ?

Rajal industries is providing multi-discipline engineering services with remarkable result. We lead in advance technology of producing fasteners, screws and bolts and meeting the high requirements in the market. Our better performance in services and higher tensile strength in our products are the result of our work-oriented approach.

Rajal Industries is leading in the making of SS products. We stand as a precious manufacturer, supplier, trader and service provider of multiple industries for fasteners, gratify in providing a wide range of High Tensile Studs, Bolts, Nuts, Washers. These products are extensively appreciated for their accurate dimensions and sturdiness.

## Our Strength

We got a lot of appreciation for completing the large-scale engineering project. As we work on multiple industries, we have hands-on experience in each sector and got valuable results. Our approach for work is always result-oriented.

We highly believe in reporting and documentation work where we work with zero error.

## Vision

Our vision is clear, we highly believe in focus to provide a customized solution for each project and order. Quality is our strength and trust of our clients is the result of our top-class quality in both, product and services.

## Mission

Delivering exceptional client service with continual and sharp results.

# Fasteners

**F**asteners are the most useful device which append two or more objects and the non-permanent joints belong to the mechanical industry. We are in the topmost list for offering eminent in quality with economic prices.

## Stainless steel screws

- Wood Screws
- Machine screws
- Phillips pan head screws
- Button head screws
- Pan head slotted screws
- Cheese head slotted screws
- Roundhead screws
- Countersunk head slotted screws
- Allen grub screws
- Self-tapping screws

## Stainless steel studs

- Threaded studs
- Weld studs
- Threaded rod

## Stainless steel washers

- Flat Washer
- Spring Washer
- Square Washer

## Stainless steel Bolts

- Hex head bolts
- Allen cap bolts
- Carriage bolts
- Anchor Bolts
- Flange bolts
- Elevator bolts

## Stainless steel nuts

- Hex nut
- Lock nut
- Weld nut
- Nylon insert nut
- wing nut
- Flange nut
- Square nut

## Industrial fastener

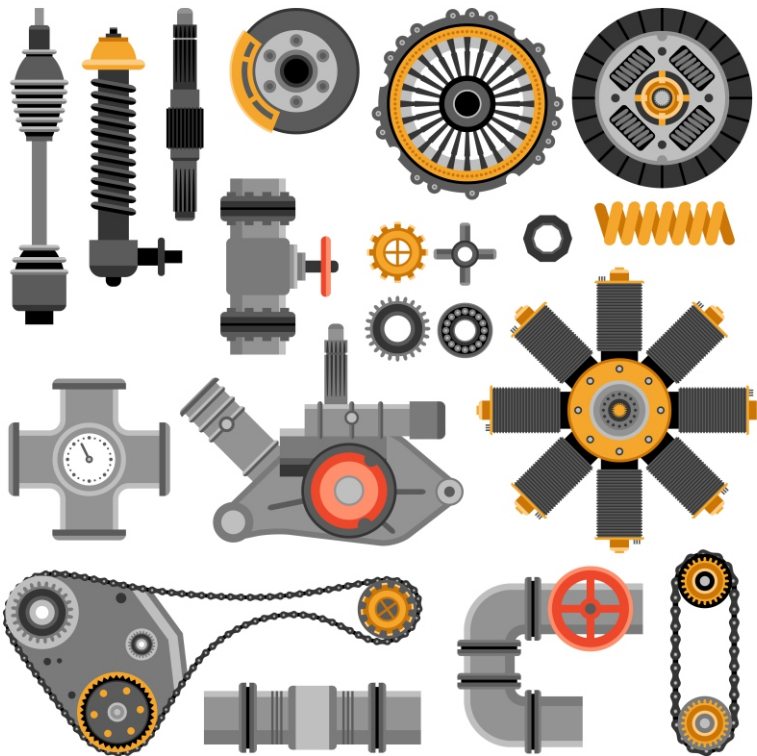

- Special design
- New development
- Industrial fasteners
- Special industrial fasteners
- Fasteners as per Design/Drawings

# Automotive Components

Automotive industry is one of the fastest-growing industry and also have a large share in exports. This industry includes a big number of products and components which are required in automobiles. Automotive components and the sub-components are majorly used in the productions of heavy-duty vehicle.

- Insert collars & Moulding
- Deep drawn components
- Precision engineering components
- Metal turned parts
- Automotive turned parts
- Hardware parts
- Sanitary fittings
- Automobile components
- Machined components
- Steel fittings
- Precision machined engine components
- Cylinder heads and crankshafts
- Mould design and manufacturing
- CNC turned components
- CNC Machined components
- Precision CNC turning components
- Precision CNC milling components
- Industrial flanges
- Industrial bushes
